

### Mario's Metal Meeting: 3 pre-party: October 3rd at Little Devil Tilburg Netherlands

At a windy October evening I went to my local Metal bar Little Devil to support Mario's Pre Party. After some drinking and socialising it was time to see the very first band [Chaos Asylum](#). This band comes from the north of Holland and plays Polder thrash metal that means: Technical Speed Thrash Metal including great breaks and high-pitch various vocals. I like it and I am curious for more. Second band was: [Gae Bolga](#) from Belgium! These four bandmembers are true underground metal maniacs and play fast aggressive cult speed metal in the early German vein! Especially bass/vocalist Koen (Danny Copperwire) has a killer screaming high-pitch voice. Fans of bands like: Whiplash and Living Death check them out! Italian newschool thrashers [Methedras](#) were not really my cup of tea. They looked very casual ( normal ) and played modern death thrash metal in the Scandinavian way. Swedish headliner: [Decadence](#) was also not really my taste but played very good! Nice female fronted brutal modern thrash metal in the: Arch Enemy style! They also had a pretty good performance and the sound was okay. Metal Mario you did a great job to book these bands and I enjoyed the night!

Patchman Marco.

### Mario's Metal Meeting: part 3: October 4th at 013 Club Tilburg Netherlands

Finally it was time for Metal Mario's third metal party in 013 venue Tilburg Netherlands. First band: [Hatchery](#) came from Germany and kicked off with some pretty cool 80's thrash metal in the vein of Kreator, Exodus and Destruction! Despite front man Christian (Zottel ex-Unscared) is not the best vocalist around, he has definitely attitude and a good performance! Hatchery played a nice set and all people who have seen them enjoyed. Second band: Belgium thrash metal band [Sanity's Rage](#) played okay, but missed a good stage performance and in my opinion it was also a little bit boring. Not really my style! Italian moshers [Hyades](#) were great! Especially front man Marco has attitude! Too bad everyone was standing in the back of the club and only a few metalheads moshed around. It was also cool to stagedive at Mega Mosh and to (sing) scream Beastly Boys – Fight For You Right's through the microphone. Pretty cool show, but in my opinion their shows at Tilburg Headbangers Fest 2007 and Neckocalypse Fest 2009 in Belgium were much better! Pre headliner: [Acrostichon](#) is coming from Tilburg area. They did a one time unique reunion gig here at 013 Venue and played only old stuff!! At first they played the whole Engraved In Black full-length debut album from 1993 followed by some old demo and EP stuff! It was absolutely killer and they played better then ever before. Probably one of the very best reunion shows I have ever seen in my whole life! Especially bass/vocalist Corinne van den Brand showed the world she is still one of the very best death metal vocalists around! I loved every single minute of the show and good times absolutely relived. And last but not least, they also had the best sound and crowd of the festival! Headliner: [Holy Moses](#) I didn't see them longer for maybe ten minutes. During the gig I stagedived and nobody caught me so I smashed to the ground with my head. The rest of the gig I was so fucking dizzy and felt not good enough to watch, but what I heard Holy Moses kicked serious ass and everyone enjoyed the gig! Nice weekend and the pre and afterparty at Little Devil was pretty cool too! See you all next year at Mario's fourth Meeting!

Patchman Marco.
